B. The German personnel of the administration office of Object 7 are as follows:

1. Chief wage accountant - Liesch
2. Chief cashier - Rudolf Mokol
3. Drafting Bureau - Auchda
4. Economics Dept. - Furchtgott, former professor of Germanic languages, from Weipert, Czechoslovakia
5. Safety inspector - Zimmermann
6. Construction - Aurich
7. Motor pool - Becker

C. Object 7 consists of the following shafts.\*\*\*\*\*

1. Shaft 111, at Unterhammer Ehrenstein. The German shaft manager is Rudi Schmiedel.
2. Shaft 34, at Ehrenstein-Neudorf. The German manager is a man named Schubert.
3. Niederschlag 1, at Neudorf-Ehrenstein. The German manager is a man named Schulz.
4. Niederschlag 2, same location. The German manager is unknown.
5. Niederschlag 3, same location. The German manager is a man named Hohn.
6. Shaft at Jbstadt. This shaft has no number and has only recently been put into operation.
7. Shaft at the Scheibenberg. This shaft has no number and has only recently been put into operation.
8. Shaft at Neudorf. This shaft has no number.
9. A new shaft, located between Neudorf and Oberwiesenthal, is being put into operation.

D. Object 7 employs 8,100 persons, excluding Russian personnel. The book-keeping and supply departments employ 128 persons.

E. The production quota for one brigade of sixteen people for an eight-hour shift is from two to three tons of rock including waste rock. In May only shafts 111 and 34 exceeded the quota by producing 116 and 128 percent respectively. Shaft Niederschlag 1 produced only 54 percent of the quota, Niederschlag 2, 68 percent of the quota and Niederschlag 3, 74 percent. The shaft at Neudorf produced only 34 percent of the quota, the shaft at the Scheibenberg, 92 percent of the quota, and the shaft at Jbstadt, 16 to 18 percent of the quota.

F. Object 7 has one carpenter shop especially for the manufacture of the wooden boxes into which the ore is packed for shipment. A new freight station is being built at Ehrenstein for handling ore shipments. From there all mined ore is transported in freight cars to the ore dressing plant at Annaberg which belongs to Object 4.

\* [REDACTED] Comment: No confirmation as to the location or existence of this Object is available. This is also the first time that Object has been reported as being both a mining and exploration Object. 25X1A
